

St James News: Thought for the day – Friday 6th November

My best days in life - Monica Blair

You may say, I have a boring life. But life is what you make of it. Every day is exciting to me, good or bad, we have to give God thanks. Come what may I'm still alive hoping and praying for things I don't even know I already have. For sometimes we wish for some things we already have and don't know, because we did not make the most of it. And then we realised that what we prayed for we already have, and threw it away. So it's time to dig ourselves out of the gutter and look to the future singing and praising God for each day that he has spared our sinful life.
