Unexpected Encounters!

This is a great resurrection encounter! Take a few moments to read it - [Luke 24:13-33](#)

This was the story behind the lovely video we watched on Easter Sunday. You can see the video [here](#).

The two disciples met with Jesus as they were travelling together. The risen Lord Jesus would appear to his disciples and to more people over the next 40 days. He would then appear to Saul, much later, and that transformed him into Paul.

The risen Lord Jesus meets with us today. But like the two disciples on the road to Eammus, and like Saul initially, and like the disciples, we may not always recognise him immediately.

The BBC produced an interesting version of this a few years ago, where Jesus looked different [each time](#) he appeared to His disciples. It highlighted how unexpected each appearance was. But the effect was life changing.

We are in the Easter season, which runs to Ascension day, which is on the 26th May. A time of rejoicing and celebrating. Because, He still appears to us!
